1.1.1 System

Machine ID: Based on the WO serial number

Date and time: set to -6 for central time

1.1.2 Configure

WO#: work order number of truck

Vacuum Truck Type:

0. Not Selected
1. DD-PD
2. HYD SEF-SS
3. HYD SEF-DS
4. HYP-PD

Transfer Case Type:

- 0. Not Selected
- 1. 35 Teeth 1:1.457
- 2. 40 Teeth 1:1.1
- 3. 40 Teeth 1:1.275
- 4. 47 Teeth 1:1
- 5. 38 Teeth 1:468
- 6. 40 Teeth, 1:1.468

Transmission Type

- 0. Not Selected
- 1. Allison 3000 Dual PTO
- 2. Allison 4000
- 3. Manual
- 4. Allison 3000 single PTO

Look at work order to see PTO A and B if only A transmission is Allison 4000 if A and B is Allison 3000 Dual PTO.

Park Brake Type

- 0. Not Selected
- 1. J1939
- 2. Hardwired

All 2100I hardwired

Throttle Max RPM (water only)

From -1E7 to 1E7

Look at work order; typically, 1550

Throttle Max RPM (Vacuum)

From -1E7 to 1E7

Look at work order; typically, blower 1765 and fan 1650.

Throttle Type

- 0. Not Selected
- 1. Hardwired
- 2. TSC1-SA7
- 3. TSC1-SA39
- 4. TSC1-SA231
- 5. PTO-SA7
- 6. TSC1-SA7(Paccar MX)
- 7. PWM

Cummins engines use TSC1-SA7. Mx13 uses hardwire throttle on 2100l. A26 and Mack hardwired. Note with hardwire throttle RPM is limited on engine side not IQAN.

Vacuum CNG Truck

False/True

Vac Relief Load Management

False/True

No Front Hose Reel

False/True

Throttle VOG SA Swap (Detroit's)

False/True

Recycler Filter Motor PVEA

Locked for EngTech

Rodder Pump Water Pressure Closed Loop

False/True

Water Pump Type

- 0. Rodder Pump
- 1. CAT pump w/o Charge Pump
- 2. CAT pump With Charge Pump

Ignore Allision PTO Consent

False/True

Boom Control Type

- 0. Standard
- 1. Proportional

Body Keypad is 2x4

False/True

Blower Type

- 0. None
 - 1. Hibon VTB XL
- Affects the blower Temperature shutdown/Warning

- 1. Arrow Board

- 2. Arrow Bar
- 3. FS Arrow board

Cameras

- 0. Rear
- 1. Front, Rear
- 2. Sides, Rear
- 3. Front, Sides, Rear
- 4. None

Water Level Type

- 0. Float
- 1. Sensor

Debris Body Level Type

- 0. None
- 1. Float
- 2. Sensor

Coolant Valve

False/True

Blower Temp Sensor

False/True

Boom OOP

False/True

Body OOP

False/True

Cont. Fill

False/True

Tool package

- 0. None
- 1. Standard
- 2. 20 GPM

Pipe Rack

False/True

Vibrator

- 0. None
- 1. Hydraulic
- 2. Electric

Pinch Roller

False/True

Boiler

False/True

VOG

False/True

Recycler

False/True

Out Of Position Alarm Silence

False/True

Digital Scale System

False/True

Vac Enhance/Anti-Splash

- 0. None
- 1. 2-Pos
- 2. Variable

Cab Dump Controls

False/True

Recycler Gray Water Sensor Type

- 0. All Switches
- 1. LVL switch with overflow Switch
- 2. LVL switch with High/Low Switch

Locked until Recycler is turned on. Typically set to option 1; LVL switch with overflow switch, for recycler.

Flusher

False/True

TD1140 Type

- 0. Standard
- 1. Dump Controls

Commented [DN1]: Check parameters

DPF regen

False/True

Boom OOP Disable Shift Selector

False/True

Body OOP Disable Shift Selector

Option 15 - Mirror Strobe	Digital	FALSE
Option 16 - Spare	State	Not Enabled
Option 17 - Cabinet Heaters	Digital	TRUE
Option 18 - Heat Cord	Digital	FALSE

Option 19 - Scale System	Digital	FALSE
Option 20 - Body Level Sensor	Digital	FALSE
Option 21 - Hydraulic Oil type	State	None
Option 22 Hose Reel	Digital	FALSE
Option 23 Load limit switch	Digital	FALSE
Option 24 Side hydraulic enabled	Digital	FALSE
MC43 Cabinet Lights	Digital	FALSE
Option 25 DOT Strokes	Digital	TRUE

10.1.1 System

Machine ID: Based on the WO serial number

Date and time: set to -6 for central time

10.1.2 Truck Setup Engineering

WO#

work order number from -200000000 to 200000000

Throttle Type

- 0. Not Selected
- 1. Hardwire
- 2. TSC1-SA7
- 3. TSC1-SA39
- 4. TSC1-231
- 5. PTO-SA7
- 6. TSC1-SA7-Paccar

Trans Type

- 0. Not Selected
- 1. Manual
- 2. Allison 250K
- 3. Allison 500K
- 4. Ultrashift 11
- 5. Ultrashift 13
- 6. Ultrashift 18

Vacuum Type

- 0. Not Selected
- 1. Roots 824
- 2. Robuschi 145
- 3. Fan

Transfer Case Type

- 0. Not Selected
- 1. 1:1.100
- 2. 1:1.275
- 3. 1:1.470

Park Brake Type

- 0. Not Selected
- 1. J1939
- 2. Hardwire

Fan Tooth Count

Typically set to 30

Recirc Comp Value %

Typically set to 10

GT Cell Module

False/True

Option 2 – Recirc

True/False

Option 3 – Spare

Second Operator Station

False/True

Option 4 - Air Compressor

False/True

Option 5 - Water Heater

True/False

Option 6 - Knife Gate

False/True

Option 7 - Sludge Pump

False/True

Option 8 - Tool Package

False/True

Option 9 - Vacuum Enhancer

False/True

Option 10 - Driver Work Lts

True/False

Option 11 - Pass Work Lts

False/True

Option 13 - Boom Work Lts

True/False

Option 12 - Rear Work Lts

False/True

Option 14 - Beacon Lts

True/False

Option 15 - Mirror Strobe

False/True

Option 16 – Spare

Arrow Board

Option 17 - Cabinet Heaters

True/False

Option 18 - Heat Cord

False/True

Option 19 - Scale System

False/True

Option 20 - Body Level Sensor

False/True

Option 21 - Hydraulic Oil type

- 0. None
- 1. ISO-22
- 2. ISO-32
- 3. ISO-46

Option 22 Hose Reel

False/True

Option 23 Load limit switch

False/True

Option 24 Side hydraulic enabled

False/True

MC43 Cabinet Lights

False/True

Option 25 DOT Strobes

True/False

Body Locks	Digital parameter	FALSE
Hyd Oil Type	State parameter	ISO-32
Throttle Max RPM	Function parameter	2150
Throttle Type	State parameter	Not Selected
Transmission Type	State parameter	Not Selected
Aux Pump Has Torque Limiter	Digital parameter	TRUE

Allison Consent Source Address	State parameter	SA 49
Boom Work Lights	Digital parameter	TRUE
Cabinet Heaters	Digital parameter	TRUE
Debris Body Level Type	State parameter	None
Driver Side Work Lights	Digital parameter	FALSE
Passenger Side Work Lights	Digital parameter	TRUE
Rear Work Lights	Digital parameter	TRUE
Recirc	Digital parameter	TRUE
Vac Enhance	Digital parameter	TRUE
Vibrator	Digital parameter	TRUE
Water Heater	Digital parameter	TRUE
Water Level Type	State parameter	Float
Air Compressor Type	State parameter	None
Tool Package	Digital parameter	TRUE
Sludge Pump	Digital parameter	FALSE
Strobes	Digital parameter	TRUE
DigFAST	Digital parameter	TRUE

11.1.1 System

Machine ID: Based on the WO serial number

Date and time: set to -6 for central time

11.1.2 Configure

WO#

work order number from -200000000 to 200000000

Body Locks

False/True

Hyd Oil Type

0. ISO-32
1. ISO-22
2. ISO-43

Throttle Max RPM

See build ticket for RPM

Default at 2150

Throttle Type

0. Not Selected
1. Hardwire (needs Programming)
2. TSC1-SA7

3. TSC1-SA7 (Paccar MX)

Transmission Type

- 0. Not Selected
- 1. Manual
- 2. Allison

Aux Pump Has Torque Limiter

True/False

Allison Consent Source Address

- 0. SA 49
- 1. SA 49
- 2. SA3 3

Source Address in decimal

11.1.3 Options

Boom Work Lights

True/False

Cabinet Heaters

True/False

Debris Body Level Type

- 0. None
- 1. Float
- 2. Sensor

Driver Side Work Lights

False/True

Passenger Side Work Lights

True/False

Rear Work Lights

True/False

Recirc

True/False

Vac Enhance

True/False

Vibrator

True/False

Water Heater

True/False

Water Level Type

- 0. Float
- 1. Sensor

Air Compressor Type

- 0. None
- 1. 185CFM /150PSI
- 2. 200CFM /200PSI
- 3. 300CFM / 250PSI
- 4. 300CFM /110PSI

CFM = cubic feet per minute

PSI = Pounds per Square Inch

Tool Package

True/False

Sludge Pump

False/True

Strobes

True/False

DigFAST

True/False

12 APXX

Commented [DN14]: TODO when APXX starts to be built

12.1 Variables

Name	Type	Default
Machine ID	Text parameter	NULL
Date And Time	Integer parameter	-6
WO#	Integer parameter	20000000
Truck Type	State parameter	APXX Classic
Blower Type	State parameter	Roots 824

Throttle Type	State parameter	TSC1 SA7
Max Engine RPM	Integer parameter	1850
Trans Type	State parameter	Allison 3000
Air Compressor Type	State parameter	None
Vibrator	Digital parameter	FALSE
Recirc	Digital parameter	FALSE
Vac Enhance	Digital parameter	FALSE
Water Heater	Digital parameter	FALSE

12.1.1 System

Machine ID: Based on the WO serial number

Date and time: set to -6 for central time

12.1.2 Configure

WO#

work order number from -200000000 to 200000000

Truck Type

- 0. APXX Classic
- 1. APXX Simple
- 2. FLXX Classic
- 3. FLXX Simple

Simple: more electrical and software controls

Classic: more mechanical controls

Blower Type

- 0. Roots 824
- 1. Roots 624
- 2. Hibon 8702
- 3. Robuschi 145

Throttle Type

- 0. TSC1 SA7
- 1. Hardwire

Max Engine RPM

See work order for max RPM defaults to 1850

Trans Type

0. Allison 3000
1. Allison 400
2. Manual

12.1.3 Options

Air Compressor Type

0. None
1. 185 CFM/150PSI
2. 200 CFM/200PSI
3. 300 CFM/250PSI
4. 300 CFM/110PSI

CFM = cubic feet per minute

PSI = Pounds per Square Inch

False/True

13 TRXX

13.1 Variables

Name	Type	Default
Machine ID	Text	NULL
Date And Time	Integer	-6
WO#	Integer	20000000
Electric 4 Way Valve	Digital	TRUE
Wireless	State	CarTek
Strobes	Digital	TRUE
Arrowboard	Digital	FALSE
Tool Package	State	Default state
Water Heater	Digital	FALSE
Work Lights	Digital	TRUE

13.1.1 System

Machine ID: Based on the WO serial number

Date and time: set to -6 for central time

13.1.2 Configure

WO#

work order number from -200000000 to 200000000

13.1.3 Options

Electric 4 Way Valve

True/False

Wireless

- 0. CarTek
- 1. R260

Strobes

True/False

Arrow board

False/True

Tool Package

- 0. Default State
- 1. None
- 2. Hyd. Tool Package

Water Heater

False/True

Work Lights

True/False

14 Guzzler

Program new box with A30. For 250K CAN plug in A31 and A29 if 500K CAN use A28 instead of A29

14.1 Variables

Name	Type	Default
Machine ID	Text	NULL
Date And Time	Integer	-6
Trans Type	State	None
Throttle Max RPM	Function	1650
Throttle Type	State	TSC1 SA7

250K Throttle Desired RPM message Selection	State	Auto
500K Throttle Desired RPM message Selection	State	Auto
Allison Range ID	Digital	True

14.1.1 System

Machine ID: Based on the WO serial number

Date and time: set to -6 for central time

14.1.2 Truck Config

Throttle Type

- 0. TSC1 SA7
- 1. TSC1 SA7 MX

Trans Type

- 0. None
- 1. Manual Trans
- 2. Auto Trans

Throttle Max RPM

Reference build ticket default is 1650

250K Throttle Desired RPM Message Selection

- 0. Auto
- 1. ECU
- 2. PTO

500K.Throttle Desired RPM Message Selection

- 0. Auto
- 1. ECU
- 2. PTO

Allison Range ID

True/False

Adjusts the range indicator for Alison or Eaton Ultrashift

14.1.3 Options

14.2 VMMS

Used on older boxes that do not need 500K
